DATA ANALYST | BI ANALYST | POWER BI DEVELOPER

Buenos Aires, Argentina | +54 11 6438-1757 | claudio_r11@hotmail.com

PROFESSIONAL SUMMARY

Data Analyst / BI Analyst with 4+ years of experience in Business Intelligence, data analysis, modeling, visualization, and data governance. Specialized in Power BI, SQL, DAX, Power Query, and Microsoft Fabric, integrating large data volumes from Teradata, Azure, and relational databases. Experience across energy, payments, retail, consumer goods, and e-commerce, turning data into KPIs, executive dashboards, and actionable insights to support decision-making.

TECHNICAL SKILLS

Business Intelligence: Power BI, DAX, Power Query (M), dimensional modeling, KPIs, executive dashboards, data storytelling

Data & SQL: SQL Server, PostgreSQL, MySQL, Teradata, Trino, SAP HANA, complex queries, query optimization, data validation

Cloud & Platforms: Microsoft Fabric, Azure, BigQuery, source integration, data transformation

Programming & Analytics: Python, pandas, Excel, Google Analytics, Tableau, Looker Studio

Data Management: ETL/ELT, Data Governance, data quality, technical documentation, commercial analytics, Sell In / Sell Out

PROFESSIONAL EXPERIENCE

Data Analyst | COREBI - YPF | Jun 2023 - Present

- Design and maintain Business Intelligence solutions using Power BI and Microsoft Fabric, integrating data from Teradata and Azure environments.
- Optimize extraction, transformation, modeling, and visualization processes to support analysis of large data volumes and improve data availability.
- Automate KPIs and reports, document solutions, and support users to strengthen dashboard adoption and reliability.

Data Analyst - Contractor | Visa | Feb 2026 - Jul 2026 | Buenos Aires, Argentina

- Analyzed transactional spending, customer behavior, campaigns, financial products, and NFC payment adoption using SQL and BI tools.
- Developed reports and insights for banks and merchants, segmenting results by issuer, product, channel, and usage behavior.
- Standardized transaction, spending, average transaction value, and customer metrics to support executive tracking and comparisons.

Data Analyst / BI Analyst - Contractor | BiMetriks | Dec 2025 - Jul 2026

- Developed dashboards and analytical models for projects involving Nestle, Walmart, McCain, Revlon, and L'Oreal.
- Analyzed Sell In, Sell Out, inventory, coverage, products, categories, channels, and points of sale to build commercial performance indicators.
- Built and optimized metrics, transformations, and executive Power BI reports to improve business monitoring.

Data Analytics Instructor | Coderhouse | Jul 2023 - Present

- Teach SQL Server, Power BI, DAX, Power Query, data modeling, and visualization through business-oriented use cases.
- Mentor final projects, evaluate dashboards, and coach students on best practices for analysis and communicating results.

Data Governance Analyst | COREBI - Grupo Tagle | Sep 2022 - Jun 2023

- Produced data quality reports, technical documentation, and guidelines to ensure the integrity, traceability, and consistency of information assets.
- Advised users and business teams on definitions, criteria, and data quality controls.

E-Commerce Data Analyst | WeareAppa | Jan 2022 - Sep 2022

- Analyzed trends, customer behavior, and campaign performance using PostgreSQL, MySQL, and Google Analytics.
- Developed Looker Studio reports to monitor traffic, conversions, and digital marketing performance.
